Languages	C, C++, JavaScript, Python
Backend	PHP, Node.js, Express.js, MySQL, MongoDB
Frontend	React, HTML, CSS, Bootstrap
Design	Figma, Adobe Photoshop, Adobe Illustrator, Adobe Premiere Pro, Adobe FireFly, Canva

PROJECTS

Project Management System —Academic Project. Our Project Management System transforms college project management by empowering students and professors with an efficient platform. Students log in, submit projects, and track progress, while professors review, update, and manage project details. ([Link](#))

- Languages and Technology - **HTML, CSS, JAVASCRIPT, MYSQL, PHP**

Netflix— OTT Platform. Engineered a dummy OTT platform mimicking Netflix, featuring show lists, login capabilities, and database synchronization, enhancing user engagement and data management. ([Link](#))

- Languages and Technology - **HTML, CSS, JAVASCRIPT, MYSQL, PHP**

Sudoku-Solver—Game. Built a web-based drum kit application that mimics real drums. Clicking any button triggers the corresponding drum sound, while users can also activate sounds using designated keyboard keys.

- Languages and Technology - **C++**
